The Finest Home Computers You Can Buy.

# *Your Best Value*

## **THE ATARI 600XL HOME COMPUTER**

An ideal introduction to computers, the versatile ATARI 600XL Home Computer features built-in ATARI BASIC Programming Language, a full-stroke keyboard, a HELP key, and an international character set.

The ATARI 600XL Home Computer provides access to hundreds of ATARI software programs, for learning, home management, personal development, and programming—all rendered in dazzling graphics and sound.

To ensure years of continued enjoyment, the ATARI 600XL Home Computer includes a parallel bus connection, so when you're ready for more, you can expand to 64K memory. Plus—it's compatible with every computer peripheral we offer. Compare the features. Compare the price. You'll find the ATARI 600XL offers more of what you're looking for in a home computer, for less than you'd expect to pay.

"The thing about the new Atari Computer System is that it's really easy to learn how to use."

#### TECHNICAL NOTES:

16K RAM (Expandable to 64K RAM)

Full-stroke keyboard

Built-in ATARI BASIC Programming Language  
HELP key

Software cartridge slot

Software compatibility works with 16K programs designed for all ATARI Computers

Hardware compatibility with ATARI peripherals

5 text modes

11 graphic modes

256 colors

4 sound voices

320 x 192 maximum resolution

40 x 24 text display

International character set

TV output

2 controller ports

Serial I/O connector

Parallel bus interface

Self-test diagnostics

# *Pack in the Power!*

## THE ATARI 800XL HOME COMPUTER

The ATARI 800XL Home Computer starts with all the features included in the lower-priced ATARI 600XL, then packs in the power of 64K Random Access Memory, allowing you to use any of the more than 2,000 programs available for ATARI Home Computers.

For example, you can conduct dramatic scientific experiments with AtariLab, or learn music theory with AtariMusic I and II. Intriguing personal development products like the ATARI

Touch Tablet and ATARI Light Pen let you create your own color graphics.

Use your ATARI 800XL and a disk drive for database management with SynFile+, or expansive financial modeling with SynCalc. Display your forecasts with SynTrend—an exclusive new applications program developed for ATARI by Synapse Software.

"An Atari Computer can help you organize, learn, or just have fun."

With 64K of memory, you can program elaborate sound and graphics with the built-in ATARI BASIC language. Or try more advanced languages like MicroSoft BASIC II to really stretch your range of creative options.

Games? What a great way to start using your computer for the first time! Any ATARI computer you choose provides the best in home entertainment and real arcade action.

So if you're looking for the home computer that really lets you do more, the ATARI 800XL is the one for you!

#### TECHNICAL NOTES:

Includes all the features of the ATARI 600XL Computer plus:

64K RAM

TV and monitor outputs

# Print it on Paper!

## ATARI PRINTERS

Whether you're interested in printing text, graphics or both, ATARI offers the right tool for any job.

### THE ATARI 1025 80-COLUMN PRINTER

THE FASTEST WAY TO PRINT IT

For speed and versatility, the ATARI 1025 80-Column Printer is just the ticket. This dot-matrix printer

uses regular typing paper or fan-fold computer paper. And it offers a choice of print styles: a standard at 80 characters per line, condensed type at 132 characters per line, and an extra bold at 40 characters per line.

## THE ATARI 1020 COLOR PRINTER

SPECTACULAR COLOR  
GRAPHICS

Four-color graphics and text are the specialty of the ATARI 1020 Color Printer. The 1020 is a perfect companion to ATARI LOGO, which allows both adults and children to easily create artistic designs, charts and graphs. It also comes with programs that let you draw on the screen and plot on paper directly, using a joystick or ATARI Touch Tablet with any ATARI Home Computer.

"Print it out on your own stationery. Atari computers may make the typewriter obsolete."

## THE ATARI 1027 LETTER QUALITY PRINTER

MAKE THE BEST  
IMPRESSION

Choose the ATARI 1027 Letter-Quality Printer when you need to make your best impression. It prints fully-formed letters like a quality electric typewriter, so it's ideal for use with a word processor like Atari-Writer. Since it accepts single sheets of paper, you can even print on your own letterhead or heavy bond.

# Build your System

## PERIPHERALS

### THE ATARI 1010 PROGRAM RECORDER

CHOOSE TAPE  
FOR ECONOMY

Add reliable storage and retrieval capability to your computer system without spending a lot of money. The ATARI 1010 Program Recorder features a unique two-channel capability. Loaded with a program cassette, like any of those in the ATARI language series, the 1010 recorder can talk you through learning a new skill. The ATARI 1010 Program Recorder uses standard cassettes to store text, programs and other information.

### THE ATARI 1050 DISK DRIVE

CHOOSE DISKETTES  
FOR CONVENIENCE

Adding an ATARI 1050 Dual-Density Disk Drive to your home computer system gives you fast, convenient information access. Store text, data or programs permanently on compact, easy-to-handle 5¼-inch diskettes. A diskette holds up to

127K bytes of information on a side (as much as 50 pages). And you can get to that information fast—because the 1050 Disk Drive will find any file in a fraction of a second. You can also enjoy the many diskette-based programs available for ATARI Home Computers.

## THE ATARI 1030 DIRECT CONNECT MODEM

COMMUNICATE WITH  
THE WORLD

Log onto information services and electronic bulletin boards. Bank or shop by computer. Or simply talk to fellow computer users with the economical ATARI 1030 Direct Connect Modem. It plugs directly into your phone jack so *your* home computer can access

*other* computers over standard telephone lines. The built-in ModemLink telecommunications program even allows you to dial directly from your computer for faster, more efficient operation.

"The best thing about what you see here is that everything works with everything else. In other words, it's a system."

## THE ATARI 850 INTERFACE MODULE

Plug this interface into the serial port of any ATARI Home Computer, and it provides standard RS-232C and Centronics ports.

## THE ATARI 1064 MEMORY MODULE

Insert this module into the expansion connection at the back of your ATARI 600XL, and it becomes a full 64K RAM computer.

## ATARI TRANSLATOR FOR COMPLETE COMPATIBILITY

The ATARI Translator lets you run software designed for ATARI 400/800 computers on your ATARI XL Home Computer. The Translator converts, or translates, the codes in software designed for the ATARI 400 and 800 Home Computers into instructions your ATARI 600XL, 800XL, 1200XL, or 1450XL computer can understand and follow. With the ATARI Translator, you gain access to over 2,000 programs available for ATARI Home Computers. The ATARI Translator is only required for some programs. Available through Atari Customer Service.

# Unleash your Creativity!

## ACCESSORIES

### THE ATARI TOUCH TABLET With AtariArtist Software Cartridge

#### DRAW YOUR OWN CONCLUSIONS

Paint pictures, draw diagrams, write script, or even invent new art forms. The ATARI Touch Tablet puts the spectacular graphics power of any ATARI Home Computer at your fingertips. Draw with your finger on the Touch Tablet surface, or use the unique electronic stylus to create all kinds of designs and images.

Anything you draw on the Touch Tablet will appear right before your eyes—on your TV screen. An ideal choice for creative kids, aspiring artists, or anyone who wants to easily create computer graphics.

ATARI TOUCH TABLET CX77

"With this new Atari Light Pen, we don't have to program. Or even type. You draw right on the screen."

### THE ATARI LIGHT PEN With AtariGraphics Software Cartridge

#### CREATE AT THE SPEED OF LIGHT

Plug the ATARI Light Pen into any ATARI Home Computer, insert the included software cartridge, and you're ready to

create sophisticated graphics just by pointing at the TV screen. An on-screen menu lets you select freehand sketching, straight lines, rectangles, circles and more, in your choice of 128 colors. It's the most direct way to use the powerful graphics capability of your ATARI Computer.

ATARI LIGHT PEN CX75

## THE ATARI NUMERICAL KEYPAD

A BETTER WAY TO ENTER NUMBERS

Designed to complement such high-powered financial programs as The Bookkeeper and Visicalc, the ATARI Numerical Keypad offers a standard adding-machine keyboard for single-handed entry of dollar amounts, account numbers, and more. You can even write your own programs for it.

ATARI NUMERICAL KEYPAD CX85

PLUG IN FOR FUN AND GAMES

## JOYSTICKS AND PADDLE CONTROLLERS

Often imitated—but never surpassed for real arcade feel—classic controllers deliver all the excitement you expect from Atari. Both plug easily into your computer—and both plug you into the world of arcade entertainment.

ATARI CX40 (SINGLE JOYSTICK),  
CX40-04 (JOYSTICK PAIR),  
CX30-04 (PAIR OF PADDLES)

## REMOTE CONTROL JOYSTICK

Add new freedom to your game-playing action. From anywhere in the room, you control your spaceship, dot gobbler, or blaster. Complete package includes two joystick/transmitters and a receiver that plugs into your computer's joystick ports.

REMOTE CONTROL JOYSTICKS CX42

## THE ATARI TRAK-BALL

Roll into action with the new ATARI TRAK-BALL. Turn tighter corners, zero in on video villains faster and blast 'em more accurately! Works with any joystick game—CENTIPEDE, MISSILE COMMAND, GALAXIAN, and more. Capture the ultimate in arcade action and excitement at home.

ATARI TRAK-BALL CX80

## COMPUTER ACCESSORIES

Power Adapter (CA014748)  
TV Switch Box (CA14746)  
Monitor cable (Color) (CX89)  
Monitor Cable (Black & White) (CX82)  
I/O data cable (5 feet) (CX81)

# Play the World's Most Popular Video Games!

**ENTERTAINMENT**

## BALLBLAZER

© LFL

You've never experienced action like this before! This unique 2-player game has split-screen graphics showing a true 3-D perspective. Hard-driving music sets the pace as you out-manuever your opponent, control the ball, and score with blazing speed. Practice DROIDS included.

16K RAM req., 2 players  
RX8064 (Cartridge)

## RESCUE ON FRACTALUS!

© LFL

As you navigate your VALKYRIE FIGHTER through the treacherous canyons of FRACTALUS, your skill and daring as a pilot are on the line. The merciless JAGGIES have shot your buddies down, and it's a race against time to rescue them, while avoiding deadly ion beams and flying saucers!

16K RAM req., 1 player  
RX8063 (Cartridge)

## CRYSTAL CASTLES

Help BENTLEY BEAR through the a-maze-ing world of Crystal Castles. But watch out! Berthilda the Witch and her evil cronies, including the Nasty Trees and the fantastic Gem Eaters, are out to turn Bentley into bear stew. This stunning computer edition features multiple screens, captivating graphics, and hours of challenging fun, just like the arcade hit.

16K RAM req., 1 player  
RX8055 (Cartridge)

## Action Animals

## ROBOTRON:2084

The arcade smash hit. It's up to you to save the last

family on Earth. Use both joysticks to outmanuever the hordes of attacking Robotrons and rescue the humans. Then blast the robots with your laser. Up to 99 levels of difficulty.

16K RAM req., 1 or 2 players  
RX8033 (Cartridge)

## DONKEY KONG BY NINTENDO

Donkey Kong steals Mario's girl, takes her up to his hideout, and dares the intrepid little hero to fight his way up to save her. An instant classic!

16K RAM req., 1 or 2 players  
RX 8031 (Cartridge)

## PENGO

Rearrange blocks of ice in the Antarctic, as you guide PENGGO the penguin in his fight against the killer SNO-BEES. Just as in the arcade game, PENGGO must crush or freeze these deadly creatures before they destroy him. The faster he clears them out, the more points you win. Don't forget the three-diamond blocks—lining them up wins you megapoints.

16K RAM req., 1 or 2 players  
RX8045 (Cartridge)

## JUNGLE HUNT

Rumbling rhinoceri! Two savage cannibals have kidnapped your lady friend and plan to cook her for supper. You must face the rigors of the jungle and rescue your sweetie before she becomes the main dish.

16K RAM req., 1 or 2 players  
RX8049 (Cartridge)

## SUPER BREAKOUT

A wall of multi-colored bricks blocks your path and dares you to smash your way through. This kind of fast action is what video games were made for.

16K RAM req., 1 or 2 players  
CXL4006 (Cartridge)

## CENTIPEDE

Crawling toward you through the mushroom patch, CENTIPEDE is joined by his equally creepy companions, the spider, flea, and scorpion.

16K RAM req., 1 or 2 players  
CXL4020 (Cartridge)

## MILLIPEDE

MILLIPEDE, cousin to the famed CENTIPEDE, is invading your garden with dozens of pesky pests. It will keep your skin crawling, trying to get rid of them before they get to you.

16K RAM req., 1 or 2 players  
RX8048 (Cartridge)

## DONKEY KONG JUNIOR BY NINTENDO

Another great arcade favorite brought home! When Mario the carpenter captures Papa Donkey Kong, little Junior runs, jumps, shinnies, and climbs to the top to save him. This one's fun for everyone.

16K RAM req., 1 or 2 players  
RX8040 (Cartridge)

## PAC-MAN

One of the best-known and most loved video games ever. Atari brings home the original dot-gobbler and his ghostly pursuers—with all the vivid colors, excitement, and fun of the arcade original.

16K RAM req., 1 or 2 players  
CXL4022 (Cartridge)

## MS. PAC-MAN

She's here, America's first lady of the arcade. Enjoy the same great graphics and sounds as you guide the ever-hungry MS. PAC-MAN through multiple mazes, gobbling up dots, ghosts, and fruits.

16K RAM req., 1 or 2 players  
RX8043 (Cartridge)

## JR. PAC-MAN

Seven new scrolling mazes, more power pills, and an incredibly energetic JR. PAC-MAN make this the most challenging and fun PAC-family game yet.

16K RAM req., 1 or 2 players  
RX8061 (Cartridge)

## DIG DUG

The cheerful miner only wants to unearth his beloved fruits and veggies—but first he has to pop the dragons and monsters that guard them.

16K RAM req., 1 or 2 players  
RX8026 (Cartridge)

## DEFENDER

Soar over a blighted landscape on a desperate mission to save frightened humanoid from dreaded attack craft.

16K RAM req., 1 or 2 players  
CXL4025 (Cartridge)

## Action Adventure

## POLE POSITION

The ultra-realistic graphics and sounds of the Grand Prix explode into your living room. First try to qualify for one of the eight starting positions. Then compete with eight other drivers on the treacherous Fuji raceway.

16K RAM req., 1 or 2 players  
RX8034 (Cartridge)

## JOUST

Take a ride on the back of an ostrich, as you attempt to knock the other players off their buzzards. But watch out for dangerous pterodactyls and the Troll of the Lava Pit! Just like the arcade game.

16K RAM req., 1 or 2 players  
RX8044 (Cartridge)

## GALAXIAN

A spectacular version of the arcade hit. Only you can fend off the swarms of bomb-dropping Galaxians. Features infinite levels of difficulty.

16K RAM req., 1 or 2 players  
CXL4024 (Cartridge)

## E.T.™ PHONE HOME!

E.T. and his friend, Elliott, must find the phone pieces E.T. needs to call his mother ship. Realistic action plus the voice of E.T. himself!

16K RAM req., 1 or 2 players  
RX8030 (Cartridge)

## QIX

Complete box after box on the screen, while you're pursued by the whirling QIX and sizzling Sparx. This action strategy game is unlike any other—with a trillion possibilities!

16K RAM req., 1 or 2 players  
CXL4027 (Cartridge)

## ASTEROIDS

You're caught in the middle of an asteroid shower. Blast these meteors or hyperwarp to a different place to survive this frightening onslaught. An arcade classic.

8K RAM req., 1 or 2 players  
CXL4013 (Cartridge)

## MISSILE COMMAND

Missiles rain down on the six cities under your defense. Use your three missile silos to protect the cities from ICBMs, smart bombs, and other menaces. This multi-level game takes all the skill and daring you've got!

8K RAM req., 1 or 2 players  
CXL4012 (Cartridge)

## SPACE INVADERS

Space Invaders are descending on your planet! Only someone who can shoot straight and duck for cover can beat them. Features spectacular graphics and infinite varieties of game play.

8K RAM req., 1 or 2 players  
CXL4008 (Cartridge)

## CAVERNS OF MARS

The treacherous caverns are the Red Planet's only vulnerable points, but who among us has the skill to navigate through them to activate the Doomsday Bomb?

16K RAM req., 1 or 2 players  
RX8021 (Cartridge)

## STAR RAIDERS

In this best-selling computer game of all time, your ship is hyperwarping past Zylon cruisers. Lock 'em into your gun-sights and blast 'em!

8K RAM req., 1 or 2 players  
CXL4011 (Cartridge)

## Battle Games

## FINAL LEGACY

An exciting ATARI original, this three-front war game puts you in strategic command of the battleship *Legacy* as you challenge the War-mongers at sea, on land, and in the air.

16K RAM req., 1 or 2 players  
RX8067 (Cartridge)

## EASTERN FRONT (1941)

You're the German commander and the computer determines Russian strategy. The most challenging and complex re-creation of battle ever devised.

16K RAM req., 1 player  
RX8039 (Cartridge)

## Sports

### BASKETBALL

The great old American favorite, updated by new technology to give thrills you never knew existed.

8K RAM req., 1 to 4 players  
CXL4004 (Cartridge)

### RealSports FOOTBALL

The thrills and excitement of real football! You can pass, run, punt, even kick field goals. You select formations and plays, call audibles and control the players in real time. Play with a friend or against the computer.

16K RAM req., 1 or 2 players  
RX8029 (Cartridge)

### TENNIS

Smash, volley, or battle it out at the baseline! You can control the exact positioning of your shots and even serve to your opponent's forehand or backhand. Play singles or doubles matches with a friend or against a computer.

16K RAM req., 1 or 2 players  
RX8042 (Cartridge)

# An Entertaining Way to Learn

## LEARNING

### MICKEY IN THE GREAT OUTDOORS

Takes youngsters through two complete learning adventures: Mickey Goes Hiking, which helps children build word recognition and learn sentence construction, and Mickey Goes Exploring, designed to sharpen arithmetic skills. For ages 7 to 10.

32K RAM required  
DX5050 (Diskette)

### MY FIRST ALPHABET

Teaches letters and numbers with vivid picture clues and delightful musical rewards. For ages 3 to 5.

32K RAM required  
CX8135 (Diskette)

### SKYWRITER

Kids everywhere are discovering a creative and entertaining way to learn how to make compound words. While flying through the clouds, they pick out two root words that combine to form a word matching the definition at the top of the screen. SkyWriter teaches basic word structure, spelling and reading skills, and best of all, it's fun! For ages 6 to 14.

16K RAM required  
RX8059 (Cartridge)

### JUGGLES' HOUSE

Here's a valuable pre-school program that helps children learn the essential spatial relationships of *upper*, *lower*, *inside*, and *outside*. Colorful graphics and charming music make it fun to discover these fundamentals, and this knowledge helps them with letter recognition and reading skills. For ages 3 to 6.

16K RAM required  
CX4130 (Cassette)  
CX8138 (Diskette)

### JUGGLES' RAINBOW

Juggles' Rainbow helps children grasp alphabet, spelling, and reading skills by teaching the concepts of *above*, *below*, *left*, and *right*. For ages 3 to 6.

16K RAM required  
CX4129 (Cassette)  
CX8137 (Diskette)

## ATARI PILOT

### AN AUTHORIZING LANGUAGE WITH "TURTLE" GRAPHICS

Responsive, friendly turtle graphics let you easily create imaginative pictures and animated graphics. Or use the simple SOUND statements for melodies and sound effects. PILOT is the ideal introduction to computer awareness and is excellent for developing logical thought patterns. Commands are only one or two characters long. For ages 8 to adult.

8K RAM required  
CXL4018 Home Package  
(Cartridge)  
CX405 Educators' Package

## AN INVITATION TO PROGRAMMING 1, 2, & 3

One of the most fun and rewarding ways to learn ATARI BASIC. Step-by-step audio lessons take you from exciting simple PRINT statements to writing programs and creating sound and graphics displays. For ages 10 to adult.

1: THE FUNDAMENTAL OF PROGRAMMING  
8K RAM required  
CX4101 (Cassette)

2: WRITING PROGRAMS ONE AND TWO  
8K RAM required  
CX4106 (Cassette)

3: SOUND AND GRAPHICS  
8K RAM required  
CX4117 (Cassette)

**"There are over two thousand programs you can run on Atari Home Computers."**

## ATARI LOGO

### A PROGRAMMING LANGUAGE AND A PROBLEM SOLVING TOOL

Plug in an ATARI Logo Programming Language cartridge, and enter a stimulating environment where mathematical and logical thinking become second nature. ATARI Logo is elegantly simple, so pre-schoolers can explore profound ideas in words they can understand. Yet it's easily expandable so that experienced programmers can satisfy their creative desires.

Learners of all ages gain insight into geometry, math, and physics using ATARI Logo's Turtle Graphics, enhanced by the renowned sound and color capabilities of

ATARI Home Computers. Create imaginative animation or video games by controlling ATARI Logo's four dynamic "turtles."

ATARI Logo is built on state-of-the-art artificial intelligence concepts such as list processing. Ordinary words, even sentences, can be moved, changed, and transformed to simulate the richness and complexity of human speech.

At last, there's a computer language that lets you start at your own level—and explore to the limits of your imagination. One of the valuable educational programs from ATARI Learning Systems.

16K RAM required  
KX7097 (Cartridge)

# Release your Imagination!

## PERSONAL DEVELOPMENT

### ATARI MUSIC I & II

The perfect way to learn to read music. AtariMusic I teaches note reading and whole and half steps; AtariMusic II covers major scales and keys. Each uses the sight and sound capabilities of your ATARI Home Computer to give you self-guiding lessons, practice drills and computer games to challenge your newfound knowledge. For ages 8 to adult.

24K RAM required  
ATARI MUSIC I AX2020  
(Diskette)  
ATARI MUSIC II AX2026  
(Diskette)

### MUSIC COMPOSER

Create musical compositions in four-part harmony. Your ATARI Home Computer plays your musical composition using all four of its music voices—and you can save your scores with a program recorder or disk drive.

8K RAM required  
CXL4007 (Cartridge)

### SPEED READING

"If only I knew speed-reading!" How often have you thought this as you crammed for a final, prepared for a meeting, or had ten minutes to finish that ten-page story? Through a series of computer and workbook exercises, ATARI SPEED-READING can double your reading speed, while maintaining your comprehension.

16K RAM required  
CX4126 (5 Cassettes)

## PAINT

Turn your computer into an artist's palette. With PAINT, you can create intricate and beautiful video pictures with just a joystick. Best of all, you can save your paintings on a blank diskette for a later showing. For children and adults.

48K RAM required  
DX5048 (Diskette)

"By playing Typo Attack, your child can become a real typist."

## ATARI TOUCH TYPING

Improve your typing ability with instant feedback on each lesson. Computer practice sessions measure your speed, evaluate mistakes, and even use a built-in sentence generator to drill you in weak areas.

16K RAM required  
CX4110 (Cassette)

## TYPO ATTACK

This exciting learning game teaches you to touch type as you fight off waves of animated typo invaders bent on destroying your bases. You must type the character appearing in the base under attack to blast each typo. As each level increases in speed and difficulty, fledgling typists turn into champions. For children and adults.

8K RAM required  
RX8057 (Cartridge)

# Managing the Business of Living

## HOME MANAGEMENT

### ATARIWRITER

AtariWriter is the only word processor that works with all ATARI Home Computers—because the program is contained in a convenient 16K cartridge. You can make corrections instantly, move blocks of text quickly, and reorganize pages with a few simple commands. Other features let you preview your page layout before printing, and custom-tailor a single document with a form option. And unlike other word processing programs, only AtariWriter can save text on either cassettes or diskettes. Compatible with SynCalc and SynFile+.

16K RAM required  
RX8036 (Cartridge)

### PROOFREADER

Designed exclusively for AtariWriter users, Proofreader contains an electronic spelling dictionary of over 36,000 words. It will highlight any word in your document not found in this dictionary, thus alerting you to possible misspellings. You can even look up the correct spelling right on your screen. For those frequently used proper names or unusual words, Proofreader lets you create your own personalized dictionaries.

32K RAM required  
AX2033 (Diskettes)

"AtariWriter turns any Atari Computer System into a word processor."

### FAMILY FINANCES

This practical two-diskette program itemizes over 125 entries in 13 different expense categories, and 25 income entries in each of 5 income categories, for each month. Then it prints a variety of reports to keep you up to date. Plan a budget and evaluate results, establish goals, and track your progress.

32K RAM required  
CX421 (Diskettes)

### THE BOOKKEEPER

Here's a professional double-entry bookkeeping system for your home office. Generates monthly, quarterly, or annual Profit and Loss Statements, plus Balance Sheets and General Ledger, Accounts Payable, and Accounts Receivable statements. Also updates Cash Received, Invoices Written, Checks Written, and General Journals.

48K RAM required  
CX414 (Diskettes)

## SYNCALC

No matter what kind of figures you're dealing with—business or personal—SynCalc gives you the easiest, most advanced way to calculate with your ATARI Home Computer. With its flexible formatting options and on-screen menus, SynCalc helps you set up spread sheets, handle personal finances, figure cost estimates, or write business plans. It also lets you automatically sort information, or use easy labels. SynCalc is fully compatible with SynFile+, SynTrend, AtariWriter, and VisiCalc. Includes a tutorial disk.

48K RAM required  
AX2030 (Diskette)

## THE HOME FILING MANAGER

Whether it's your favorite recipes, Pavarotti tapes, or address and birthday lists, now there's a better way to keep track of all that information. The Home Filing Manager allows you to store, edit, and find what you need to know in a faster, more efficient fashion.

16K RAM required  
CX415 (Diskettes)

## SYNFILE+

SynFile+ gives you the easiest, most advanced database management program ever created for ATARI Home Computers. Great for your small business, use it to create files, records, and reports, or to organize any information. With SynFile+ you simply tailor the shape and format of your file to the project at hand. Share the data with SynCalc or SynTrend for further analysis. It's fully compatible with AtariWriter so you can compile reports or mail multiple letters with individual names and addresses. Includes a tutorial disk.

48K RAM required  
AX2031 (Diskettes)

## TIMewise

Now there's a way to organize something you never seem to find enough of: time. Timewise helps you keep track of meetings and other appointments. For periodic events like classes, one entry takes care of the series. Timewise lets you print out your schedule for a day, a week, or any period.

32K RAM required  
DX5047 (Diskette)

## SYNTREND

SynTrend lets you perform graphic functions and statistical analyses with your ATARI Home Computer. It's comprised of two integrated programs: SynGraph and SynStat. SynStat lets you perform statistical analyses using new information or data from SynCalc or SynFile+. Then you can graph the results with SynGraph, creating full color, high resolution pie charts, bar graphs, line graphs, or scatter plots. You can tailor your screens to the job at hand and even save your charts and graphs on your diskettes for future use.

48K RAM required  
AX2032 (Diskettes)

## VISICALC

This powerful financial modeling tool will calculate, display, and print the answers to involved problems in just seconds. Change any number in your 254-line by 63-column worksheet, and VisiCalc instantly recalculates all your data and shows you the new results.

48K RAM required. (Larger amounts of data require more RAM.)  
DX5049 (Diskette)

# The Next Logical Step

## PROGRAMMING LANGUAGES

### ATARI BASIC

BASIC is the world's most popular computer programming language, with easy-to-understand English commands. ATARI BASIC fully utilizes your ATARI computer's 256-color graphics and 4-voice, 3½-octave sound capabilities. It's easy enough for the novice to use immediately, yet sufficiently powerful for advanced programmers.

8K RAM required (Longer programs require more RAM.)  
CXL4002. (Cartridge)

### ATARI MICROSOFT BASIC

ATARI Microsoft BASIC does everything that ATARI BASIC does—and more—with floating point precision to 16 digits...powerful graphics and sound capabilities...a convenient renumber command...and handy PRINT USING commands. You can set up strings at any point in your program, without dimensioning them up front. You can even create multi-dimensional arrays of variables and strings within the same program. ATARI Microsoft BASIC is particularly suitable for use in more advanced software development.

32K RAM required. (Longer programs require more RAM.)  
CX8126 (Diskette)

### ATARI MICROSOFT BASIC II

This new cartridge version of the original program is designed to run on *all* ATARI Home Computers. The cartridge itself contains the most useful features of the original ATARI Microsoft BASIC, and an extension diskette is included to give you all the power of the original. ATARI Microsoft BASIC II includes both a Reference Manual and a handy User's Guide to help you make use of the variety of programs already available in this popular programming language.

16K RAM required. (32K RAM required to use extension diskette).

AX2025 (Cartridge with extension Diskette)

## ASSEMBLER EDITOR

It's hard to beat the programming power of the ATARI Assembler Editor for faster, more efficient programs. You can use it to put together programs in machine language without having to deal directly in bits and bytes. BASIC programmers will appreciate the power to create subroutines with ASSEMBLER EDITOR and insert them into BASIC programs—routines that can help save time and valuable memory when creating complex graphics and sound displays.

8K RAM required. (Longer programs require more RAM.)  
CX4003 (Cartridge)

## ATARI MACRO ASSEMBLER AND PROGRAM TEXT EDITOR

The ATARI Macro Assembler and Program Text Editor is extremely valuable in revising and fine-tuning any complex program. Instead of having to change a variable or value line by line, this valuable programming utility allows global revisions in just a few simple steps. You can also change colors, revise graphics, and alter sound routines throughout a program without retyping all the statements. Listing control, cross reference, and conditional assembly tables offer useful overviews of program operations.

32K RAM required  
CX8121 (Diskette)

## ATARI LOGO

Now there's a computer language that lets you start at your own level—and explore to the limits of your imagination. See "LEARNING" for a full description of ATARI LOGO.

## ATARI PILOT WITH "TURTLE" GRAPHICS

The ideal programming language to introduce computer awareness. See "LEARNING" for the complete description of ATARI PILOT.

# All Together Now...

## ATARI PAKS

### ATARI ALL-IN-ONE-PAKS

Want to customize your home computer system? An ATARI ALL-IN-ONE-PAK gives you everything you need. Each includes an ATARI Home Computer, accessories and add-on components, useful programs with User's Guides, plus helpful hints and books pertaining to the subject you choose. All at a low price.

#### THE PROGRAMMING SYSTEM

Learn to program. Quickly. Easily. At your own pace. You'll begin with the ATARI 600XL Home Computer and its built-in ATARI BASIC Programming Language. Plus, in the ATARI 1010 Program Recorder, pop in an Invitation to Programming cassette, and you're on your way. This valuable ALL-IN-ONE-PAK also includes the *Inside ATARI BASIC* book, as well as two learning aids not available separately: a *Programming Exercise Book* and a *Sample Programs* cassette to let you practice your new skills.

KX7114

#### THE ATARIWRITER SYSTEM

If you're a student, a professional, or a writer of any sort, you'll find this ATARI ALL-IN-ONE-PAK gives you a better way to put your words on paper. It's easier and more efficient than even a high quality typewriter—for just about the same price.

Included are the ATARI 600XL Home Computer, the easy-to-learn new AtariWriter program with its helpful User's Guide, the ATARI 1027 letter-quality printer, and a pack of high-quality writing stock. Additionally, you get a guide to writing, with hints on putting impact into your prose.

KX7110

### ATARI ADD-A-PAKS

Owning an ATARI Home Computer opens up a new horizon of activities and applications. We've created four special ADD-A-PAKS that include everything you need to explore an area of personal interest.

#### THE ARCADE CHAMP

Transform your home computer into an exciting entertainment center. You get PAC-MAN, the all-time arcade favorite, plus QIX, the action strategy game. The Arcade Champ even includes two ATARI Joysticks and a storage case for holding game cartridges, (not available separately). Get set for non-stop fun for players of every age.

16K RAM required  
KX7102

## THE BOOKKEEPER KIT

When you run your own business, keeping track of your current financial situation is vitally important for yourself and your backers. This ADD-A-PAK includes The Bookkeeper program, to turn your ATARI Home Computer, Printer, and Disk Drive into a powerful accounting system. It generates financial reports, including Profit and Loss Statements, Balance Sheets, Accounts Receivable, Accounts Payable, and a General Ledger. For faster, more accurate data entry, you get an ATARI CX85 Numerical Keypad. Also included are a Keypad Overlay for use with VisiCalc, a User's Guide, and Technical Reference Notes. Now your business can look as good on paper as it does in the office with the Bookkeeper Kit.

48K RAM, disk drive and 80-column printer required  
CX419

## THE HOME MANAGER

Put your computer to work around the home with the ATARI Home Manager ADD-A-PAK, which includes two of ATARI's most useful Home Management Programs. Family Finances keeps track of all your income and expenses by category and by each month. You can establish a budget in each area and compare it with what you actually spend. The Home Filing Manager lets you save and recall information from "electronic file cards." Its sophisticated search functions let you find cards by title or key phrases. Together, these products form the nucleus of a computerized home management system that simplifies and streamlines the paperwork of daily life.

32K RAM and disk drive required  
CX418

## THE BASIC TUTOR I

Here's an ADD-A-PAK that introduces the world of programming to ATARI Home Computer users. Whether you're a total novice or have some previous experience, you'll soon be writing your own programs in ATARI BASIC. It includes *Inside Atari BASIC*, the clearly-written book that introduces this popular language. You also get *An Invitation to Programming 2* and 3, the self-teaching cassette programs that guide you through program writing, sound, and graphics for ATARI Home Computers. Plus an exclusive Programming Exercise Book and sample programs. Learn to write your own exciting programs with THE BASIC TUTOR I.

8K RAM and program recorder required  
KX7099

# Improving the Way We Learn

## ALS SOFTWARE

### ATARI LEARNING SYSTEMS SOFTWARE

#### IMPROVING THE WAY WE LEARN

Now you and your children can use your computer to continue your education at home, with state-of-the-art learning software from ATARI LEARNING SYSTEMS (ALS).

Learning never stops with ATARI LEARNING SOFTWARE. Everyone can find exciting areas to explore. Sophisticated, yet easy to use, ALS software teams you up with your Atari computer to continue the adventure of learning.

#### NOW AVAILABLE

Just sample some of the more than 50 new Atari Learning Systems products that are now available to turn your ATARI Home Computer into a powerful learning tool:

Mathematics—16 new programs. Computer Literacy—9 new programs. Science—4 new programs. Arts—8 new programs. Language Arts—4 new programs. Social Science—5 new programs. Books and Publications—5 new offerings.

### THE MILESTONE<sup>TM</sup> SERIES

#### VERY SPECIAL SOFTWARE

Learning through self-discovery is such an important part of life that ALS has created the Milestone Software Series—a limited number of high-quality programs, such as AtariLab. All Milestone products are unique opportunities for educational exploration. However, not every product can wear the "milestone"—only those that represent the very highest quality standards for learning software.

### ATARILAB

#### UNLOCK THE MYSTERIES OF SCIENCE

AtariLab lets you learn science by doing it. There's no other science software like it. AtariLab combines innovative hardware, including temperature, light, and biofeedback sensors, with software and experimenter's guides to make scientific theories and experiments easily understandable. Begin with the Starter Set, with Temperature Module. It includes everything you'll need to set up over 100 temperature and heat-energy experiments.

16K RAM required  
For ages 9 to adult  
AED 80013 (Cartridge/  
accessories)

# At your Service!

## CUSTOMER SUPPORT

### WE'RE HERE TO HELP

CALL OUR TOLL  
FREE NUMBER

800-538-8543 (in  
California, 800-672-1404).  
Call with any questions.  
One of us will be standing  
by, ready to talk you  
through a problem, direct  
you to the nearest ATARI  
SERVICE Center, or  
recommend solutions to  
upgrading your system  
or software library.

### OVER 1,000 SERVICE CENTERS

Wherever you live  
throughout the United  
States, you'll find nearby  
factory-authorized  
service by ATARI. They  
can remedy technical  
problems quickly and  
correctly. Because all our  
computers are precision-  
made and factory-tested  
under conditions far more  
extreme than those your  
computer would ever be  
exposed to, the chances  
of your ATARI Home  
Computer ever needing  
repair are low. But in the  
event that you *do* need  
us, isn't it nice to know  
that we're there?

### YOU'RE COVERED WITH A SERVICE CONTRACT

Insure the performance  
of your new ATARI Home  
Computer with an ATARI  
Service Contract. It can  
guarantee you continued  
enjoyment and top per-  
formance from your ATARI  
Home Computer for up  
to three years. An ATARI  
Service Contract protects  
your ATARI Home Com-  
puter investment with  
free parts and labor at  
ATARI factory-authorized  
Service Centers.

### JOIN AN ATARI USERS' GROUP

Imagine being at a  
meeting with other ATARI  
Home Computer Users  
like yourself, sharing  
discoveries, exchanging  
information, and finding  
out answers to questions.

When you join an  
ATARI Users' Group in  
your area, that's exactly  
what happens. Over  
350 independent users'  
groups have already been  
organized the world over.  
So there's probably one  
in your area. Just write  
to the ATARI Users' Group  
Support Program, 1312  
Crossman Ave., P.O. Box  
61657, Sunnyvale, CA  
94088, or call our Custo-  
mer Service number for  
information on the  
users' group near you.

### THE MAGAZINE THAT KEEPS YOU CONNECTED

Your first issue of  
*ATARI CONNECTION—  
The Home Computer  
Magazine*—comes to you  
FREE when you return  
your warranty card. In it,  
you'll find a compendium  
of helpful articles, fasci-  
nating features, and late-  
breaking scoops on  
new Atari products all  
designed to help you get  
the most out of your  
ATARI Home Computer.

You'll find programming  
tips from professionals.  
Plus easy-to-enter pro-  
grams in entertainment,  
computer graphics, and  
home management that  
you can type right in  
and RUN. If you're a pro-  
gramming whiz kid, you'll  
want to enter the "FIND  
THE BUG" contest. And  
everyone will love the  
puzzles, games, cartoons,  
stories, and much, much  
more. You'll enjoy your  
first ATARI CONNECTION  
so much that you'll  
probably want to continue  
receiving it on a sub-  
scription basis.

# The Creativity Continues...

## COMING ATTRACTIONS

Atari is always working to develop new products that extend the range, usefulness, and creativity of your home computer system. Here are just a few samples of what's coming in the near future.

### ATARI FUTUREMAKERS™ Series

Explore the Universe

#### THIS IS GROUND CONTROL

Navigate your spacecraft through our solar system while you explore the basic principals of astrophysics. Stop to visit each planet, and make intriguing discoveries. Ages 12 to adult.

48K RAM required  
DX5077 (Diskette)

#### THROUGH THE STAR BRIDGE

Travel through space and time while encountering known and theoretical astronomical phenomena. 3-D graphics and exciting sound promise to make this a journey you'll never want to end. Ages 10 to adult.

48K RAM required  
DX5076 (Diskette)

#### LETTER TUTOR

Children see letters of the alphabet, then practice writing them using an Atari Light Pen. Letter Tutor helps develop reading and writing skills along with hand-eye coordination. For ages 3 to 10.

16K RAM req., and Atari Light Pen  
RX8071 (Cartridge)

#### WORD TUTOR

This program talks! Children spell words by selecting letters from the screen using a joystick, Atari Light Pen or Touch Tablet. Then the computer speaks the word you spelled! WORD TUTOR is a magical way to develop spelling skills.

16K RAM required  
RX8072 (Cartridge)

## CAPTAIN HOOK'S REVENGE

Children uncover a map to discover hidden treasure before Captain Hook does—or they navigate between pirate ships. Two separate adventures help develop map, math, and logic skills. For ages 11 and up.

32K RAM required  
DX5053 (Diskette)

## POLE POSITION II

Soon, you'll find this challenging version of the most popular driving game to hit the arcades. There are four different tracks to compete on: Test a race through the Egyptian desert; Fuji, at the base of majestic Mt. Fuji; Seaside, set on a landscape by the sea; and Suzuka, in the midst of a traveling carnival.

## ELEVATOR ACTION

As Agent 17, it is your mission to steal government documents from a heavily-guarded, top-secret defense building. Make your way down elevators and escalators and escape to the getaway car. But watch out for enemy agents!

16K RAM req., 1 or 2 players  
RX8070 (Cartridge)

## MOON PATROL

Shoot flying saucers, dodge bullets, and jump moon craters to complete your moon patrol course. Your patrol car comes with anti-gravity jump buttons and a laser cannon. You'll need it all to combat the toughest thugs in the galaxy. Spectacular scrolling 3-D graphics.

16K RAM req., 1 or 2 players  
RX8052 (Cartridge)

## TRACK & FIELD

The Official Home Computer Of The 1984 Olympic Games gives you head-to-head or individual competition in the 100-meter dash, long jump, javelin throw, 100-meter hurdles, hammer throw, and high jump. With a special arcade controller included, TRACK & FIELD requires you to master a rhythm and intensity like no other game.

16K RAM req., 1 or 2 players  
RX8069 (Cartridge)  
Includes Special Arcade Controller

## MARIO BROS. BY NINTENDO

Mario, from Donkey Kong, and his brother, Luigi, battle a pipeful of creepy crawling pests, trying to bump them off the girders into the water below. It's twice the fun with two players, or the entire family.

16K RAM req., 1 or 2 players  
RX8051 (Cartridge)

## HOBGOBLIN (tentative title)

It's Halloween night, 4,000 years ago, and the Black Gods are about to slip out and destroy the world. To stop them, you must find four magical stones, and bring them back to Stonehenge. Your feisty HOBGOBLIN companion knows where the stones are. But will he help you or hinder you on your journey? ATARI's first text-adventure game, HOBGOBLIN also features a video Magical Mode.

# The Best is Yet to Come!!

## COMING YOUR WAY SOON

### THE ATARI 1090 XL EXPANSION SYSTEM

EXPAND YOUR HORIZONS

The 1090 XL Expansion System enhances the power, sophistication, and versatility of your 600XL, 800XL, or 1450XLD Home Computer. It connects directly to your computer's parallel bus port, so no separate interface is required.

The 1090 comes with the ATARI XL 64K RAM Card, which will increase the memory of your 600XL computer to 64K (80K bank select) or increase the

memory of your 800XL or 1450XLD computer to 128K. And expandability doesn't stop with memory. Other XL Expansion Cards are under development. The 1090 can accept up to five expansion cards, ensuring continued state-of-the-art performance from your ATARI Home Computer System.

### THE MINDLINK™ SYSTEM

The MindLink System lets you communicate with your ATARI Home Computer without using your hands.

MindLink sends electronic impulses from your mind to your computer—with no wires or cords in between. It looks like magic—but works by

relaxation. Specially designed software programs enable you to use MindLink to relax while playing games or exploring applications programs.

## THE ATARI 1450XLD HOME COMPUTER

### THE COMPUTER THAT COMMUNICATES

The ATARI 1450XLD Home Computer talks to other computers through its built-in direct-connect modem—and talks to you with its built-in speech capability.

A full 64K RAM computer, the ATARI 1450XLD includes a built-in double-density, double-sided disk drive. So, with one compact unit, you can work with up to 250 pages (352K bytes of information) on a single 5¼-inch diskette. The disk drive is connected directly to the processor bus of the computer for even greater speed.

With the built-in direct-connect modem, you can read the latest stock market quotes or busi-

ness news from your own living room. Bank, shop, or communicate by electronic mail. Access the rapidly expanding network of subscription services and special interest bulletin boards, or gather research from a wide range of library data bases.

For the ultimate in integrated technology and sophisticated ease of operation, the ATARI 1450XLD gives you the all-in-one convenience of computing, communications, and information storage in one elegantly simple design.
